DETAILED ACTION

Allowable Subject Matter

1. The indicated allowability of claims 20-22,24,28-34,36-37,51-52 are withdrawn in view of the newly discovered reference(s) to Guadalupi 5,931,348. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 20-22,24,28-34,36-37,51-52 are rejected under 35 U.S.C. 102(b) as being anticipated by Guadalupi 5,931,348.

Guadalupi discloses a beverage selection manifold as seen in Figures 1-4, which comprises a cell within a manifold body (1), the cell including an outlet opening (11,15) and first and second inlet openings (2,5), a removable cap (4,6) including a channel therein positionable adjacent to the cell in a first cap position and a second cap position (col. 3, ll. 3-35), wherein the channel allows fluid communication between the outlet opening and the first inlet opening in the first position and between the outlet opening and the second inlet opening in the second position (col. 3, ll. 14-20), an attachment device configured to hold the cap against the manifold body (col. 3, ll. 46-50).

The device shown by Guadalupi will perform the method recited in claim 22 during normal operational use of the device.
